TERMS OF SALE

2% for cash with order
or 2% 10 days, 30 days net for established accounts.

Unless otherwise specified, Bulbs will be shipped when dug in the Fall. Approximate earliest delivery date is indicated for each variety.

We will accept orders for spring delivery provided they reach us not later than December 1. Spring orders will be placed in cold storage and shipped as directed at no extra cost until April 1. After April 1 a nominal charge will be made for storage.

All Bulb prices are F.O.B. Lake Grove, Oregon, and are subject to change without notice.

Our wholesale price lists are intended for the trade only. Kindly do not hand them to amateur growers.

In ordering please specify whether shipment is wanted via parcel post, express, or freight. If wanted by post kindly include postage with remittance.

In shipments of 100 pounds or more we find air freight rates to the principal cities cheaper than railway express or equivalent to motor freight rates. In many instances this may be your cheapest and fastest means of delivery.

We will accept Trade orders for direct shipments to retail customers at our regular prices for the quantities involved plus postage and a moderate packing charge. We suggest that such orders be accompanied by the seller's mailing labels properly addressed and such shipping instructions as may be needed.

Orders for growing crops accepted subject to crop failures, shortages, or other matters beyond our control.

Any claims for shortages or errors must be made within five days after receipt of goods as we will not be responsible after that time. We give no warranty, expressed or implied, as to description, quality, productiveness or any other matter in connection with the success of the seeds, bulbs or plants sold by us and will not be responsible in any way in cases of failure, other than to replace bulbs untrue to name. If the purchaser does not accept the goods on these terms, they are to be returned at once.

QUANTITY RATES ON LILY AND MISCELLANEOUS BULBS

25 Bulbs one variety and size at 100 rate.

250 Bulbs one variety and size at 100 rate less 10%.

Wholesale orders cannot be accepted for less than five bulbs of one variety and size except on items priced per each. Where so priced 1 to 25 bulbs will be supplied at the each price, 25 or more at single bulb price less 10%.

Flowering size indicates bulbs which will have flowered at least one season in our nursery. Large or 1st size bulbs are top size for the particular variety.

In compiling this list of northwest grown lilies we have added several varieties of which we have ample stock to offer this season. In addition we grow moderate quantities of a number of other varieties and welcome inquiries concerning any which are commercially available at the present time.

In the following price list we have endeavored to briefly describe all of the stock offered by indicating flower type and size, color, height (maximum average for mature established bulbs) and flowering period under Northwest climatic conditions.

LILIES

For Garden and Greenhouse

We are pleased to present to the Trade our 1961 catalogue marking the 31st year of continuous operation of our nursery. Lilies continue to be our main specialty as in the past and their increasing popularity each year is encouraging indeed. In addition to the many fine hybrids now available we offer the largest collection of species available in this country. The new introductions listed below have been selected as outstanding in beauty and will prove to be valuable additions to any lily collection. Due to heavy demand a few of our hybrid lilies will not be available this year, including the popular Temple strains. We expect to again be able to offer these next season when stocks should be ample. Other stock offered includes Hardy Cyclamen, Erythroniums and Trilliums and a number of miscellaneous bulbs and roots and seeds. We have found a greatly increased interest in these specialty lines in recent years and we plan to add other species and varieties as rapidly as stocks are available. Several have been added in this list. While we endeavor to maintain stocks commensurate with the demand, early orders would be very helpful and we would suggest that your requirements be placed at least thirty days prior to the shipping dates indicated for the various bulbs offered. Our renewed thanks to our many customers for their continued support and welcome suggestions. We assure you that we will continue to ship only the best stock available, with each order our personal responsibility.

1961 INTRODUCTIONS

L. AURELIAN HYBRID "ARCTIC DOVE"—The flaring Type Aurelians are becoming extremely popular and this clone is outstanding among them. The large outfacing flowers, pure white with ice green center, are borne on 3-foot stems in late July. Limited stock this season.

L. AURELIAN HYBRID "MOONLIGHT SONATA"—A very unusual Type with large light yellow flowers the petals of which curl gracefully and are tipped pure white. Late flowering and non-fading in full sun. August. Four feet tall.

L. CENTIFOLIUM HYBRIDS (WILSON STRAINS)—A carefully selected strain of large hybrid trumpet lilies of excellent form and substance. The flowers are basically white with yellow throats varying in external coloring from rose pink to brownish purple. The hybrid vigor of this strain is outstanding in number, size of flowers and ease of culture. Five feet. July flowering.

L. JAPONICUM ANGUSTIFOLIUM—A rare variety of Japonicum carrying much larger flowers than the Type plant. Pure white with deep green throat. The blooms are broad trumpets and pleasantly fragrant. Three feet. June.

L. MAXIMOWICZII UNICOLOR—A very attractive new species producing stems to 5 feet in height with numerous nasturtium red unspotted recurved flowers of medium size. Especially good for cutting, non-fading in full sun and of easiest culture. July flowering.

SALES AIDS

Our "Reference Chart of Lilies for Garden and Greenhouse" contains over 2000 items of cultural information covering most of the commercial lilies. Single copies are available to the wholesale trade at .85 each postpaid. Retail price 1.25. On request we are prepared to quote quantity prices on the chart for resale. A number of our customers are offering it in their catalogue listing lilies.

"Basic Lily Culture," our new pamphlet of information for both the novice and experienced grower, is designed to answer the questions most usually asked concerning the successful cultivation of hardy lilies and is based on over 30 years experience with the genus. Copies may be secured at a cost of 8 cents each in any quantity up to 100. We will be pleased to quote prices on larger quantities upon request. We feel that it will be of material benefit to the Trade to include these instructions with all retail lily orders, particularly to customers who have had limited or no experience in Lily culture. A successful beginning will most likely assure repeat orders in future years.

"Hardy Cyclamen Culture," a leaflet of complete instructions on growing these popular plants will be included with all cyclamen orders. Additional copies will be supplied at 7 cents each.

We will also include with each cyclamen order a copy of our new color display card. This card is designed to assist in the sale of these plants by mentioning their chief attributes in concise, quickly readable form. We suggest using the card with displays of cyclamen corms or plants either for nursery or counter sale. Additional copies are available on request.

As mentioned in our previous Trade lists, we now have available a new set of color transparencies for lecture and sales aid use. This set has been expanded during the past years and the list now includes over 250 subjects from which to choose. These photographs can be supplied as slides (2 x 2), enlarged transparencies in sizes 2¼ x 3¼ and larger, or as color prints. A complete list of subjects available and details of their cost will be sent promptly upon request. In corresponding kindly advise whether slides, enlarged transparencies or prints are needed and approximate quantity.

LILY HYBRIDS

The Aurelian Hybrids—Flower Types contained in this group comprise three distinct forms as follows:

CORONAS—Reflexed or recurved in varying degrees. Petals of medium width. Moderately tall plants producing flower heads excellent for cutting as well as garden decoration.

FLARES—Large, wide flaring flowers intermediate in form between Trumpet and Recurved. A very distinct flower type with a brilliant color range.

TRUMPETS—True Trumpet shaped flowers on medium to tall stems. The flowers are large and of heavy texture.

The above three Types are subdivided into select color strains as offered below. The color strains are carefully selected at flowering time to eliminate any off colors or inferior blooms.

In addition we offer several select clones in the Aurelian group and a strain of special select semi-bowl and semi-recurved types in pastel colors.

LIFETIME GARDEN LABELS

After many years of experience with various types of metal and plastic labels we have arranged for the manufacture of a special stainless steel marker which will last indefinitely under ordinary nursery or garden conditions. Ideal for beds or rows where permanent marking is important. The thick steel will not bend or break and is easily labeled with a china marking pencil. Erase with steel wool. Size 10" long by 1" wide.
